

BULLER LIGHTS UP THE SKY

JON BULLER exploding back on the scene WITH HIS 10TH CD, *Light Up the Sky*

Juno nominee and two-time Covenant Award Winner Jon Buller is back with an all-new CD, *Light Up The Sky*. Working with award winning veteran producer Roy Salmond, *LIGHT UP THE SKY* is a project that beautifully captures Buller's versatility as an artist, combining classic rock grooves with heart-stirring worship songs and more. With the melodies and messages crisp and concise, this is, by far, Buller's most adventurous studio release.

Contributing artists include Dove award winner Carolyn Arends who lends her vocals to the track *Sing His Song*, and two-time Grammy nominee Fresh I.E., one of Canada's premiere hip-hop artists, who brings his unmistakable presence to the Gord Johnson-penned *Have Mercy (Everything We Need)*. Tim Neufeld of the internationally acclaimed worship band STARFIELD guests on Buller's radio hit currently receiving airplay *the Kingdom of Heaven*.

I had the time of my life making this recording! Several years ago I got to co-write with a songwriting hero of mine named Bob Bennett and the guitar virtuoso Jacob Moon. My producer Roy Salmond expertly brought these songs to life. Including friends like Tim, Carolyn and Fresh.i.e on the recording was really the icing on the cake for me.

Light Up The Sky is a celebration of the various styles of music that Buller has explored throughout his library of work. Heartfelt tracks such as *Broken Beauty* and *Sing His Song* cement his reputation as a spiritually grounded songwriter, while the title track and his version of Johnny Lang's *One Person At A Time* reveal the energetic rocker that still loves to turn up the volume.

LIGHT UP THE SKY was the obvious choice for title track. Wherever you find fireworks you always find people celebrating, and that's what Christian worship is all about – celebrating relationships and what Christ has done for us. My theology of music and worship continues to be drawn from John 12:32. When we lift up Jesus, He draws us unto Him. That's what LIGHT UP THE SKY is really all about. And the energy of the music on this recording definitely matches that spirit!

Currently the worship pastor at Vernon Alliance Church in the Okanagan Valley of BC, Buller is returning to his hometown of Winnipeg on September 10th for a CD release concert, and is currently planning similar stops across Canada in 2010 and 2011.
